維納斯女神的禮物

自古以來，人們都對綠柱石中的祖母綠推崇備至，優雅的綠色代表了大自然給予人類春天的承諾。在古籍中已有記載祖母綠用作奉獻給維納斯女神（Venus）的禮物。

遠在公元前 3500 年，埃及人已在開羅西南的沙漠發現祖母綠，並廣為人們佩戴。直至公元 1600 年，在哥倫比亞的莫索（Muzo），一次山洪暴漲將大量的祖母綠出土，而後來西班牙移民將這些寶石帶回國，震驚了整個歐洲，甚至世界。各國皇室爭相採用為皇室珠寶，遠至伊朗皇朝，近至英國女皇皆擁有大量的祖母綠飾物，而慈禧太后的金絲被亦鑲了兩顆逾八十克拉的祖母綠。

除哥倫比亞外，俄羅斯、巴西、津巴布韋、坦桑尼亞、贊比亞等國家都相繼發現祖母綠礦，但質素及價格始終不及哥倫比亞祖母綠。而最早出土的埃及祖母綠礦早已被耗盡。

祖母綠的開採較其他寶石困難，耗掉的也較多，也因此令其價格高昂。

天然祖母綠或多或少帶有不同形狀的結晶包裹體及裂縫，為了令其更完美，都會在裂紋中注入一些油，由於注油方法並沒有損害寶石本身的結晶組合，因此在行內廣泛利用，同時亦能在市場上被接受及肯定。未經注油處理的祖母綠，而俱備極少內含物的更是難得之撰，是收藏與投資界內一樣上乘的珍寶。

THE GIFT FROM VENUS

Since time immemorial, the emerald variety of beryl has been adored for its elegant green colour, which symbolizes nature’s gift of the spring season for mankind. Ancient fables abound about Goddess Venus being lavished with gifts of emerald.

Back in 3500 BC, the ancient Egyptians discovered emeralds in the desert southwest of Cairo, a gem that became extensively worn. In 1600 AD, huge emerald deposits emerged from the ground in Muzo of Colombia, following a torrential flood. Later, the Spanish immigrants stunned the entire Europe and even the world when they took this enormous batch of gemstones back to their home country. Emeralds can be found in many Royal jewellery collections. They include those from the royal family of the bygone Iranian dynasty and the regnant Queen of England. Even the gold-woven quilt of Empress Dowager Cixi of Qing-dynasty in China had been embroidered with two emerald pieces that weighed over 80 carats.

Apart from Colombia, emerald deposits have also been found successively in Russia, Brazil, Zimbabwe and Zambia. However, Colombian emeralds remain unrivalled in quality and prices. The mines in Egypt where emeralds were first extracted are now depleted.

Emeralds are more difficult to mine than other gemstones and more resources are wasted in the process. As a result, they are sold at extremely high prices.

Natural emeralds are more or less covered with cracks and irregularly-shaped crystalline. The cracks are often filled with oil to render these gemstones in perfection. Such a practice has been widely accepted, adopted and endorsed in the industry, given that oil injection does not compromise the gemstone’s integrity or its crystalline combinations. Natural, non-enhanced emeralds with fewer inclusions are extremely rare and highly treasured by jewellery connoisseurs and investors.

南紅瑪瑙

南紅瑪瑙是中國獨有的品種，亦是石髓的一種，古代稱之為「赤玉」。赤玉具有非常重要的歷史、藝術價值，被定為國家一級文物。歷代南紅精品都被統治者所珍視，尤其至清代更達到頂峰，由於產量極低，且早在清代乾隆時就一度絕礦，故市場流通的上品非常稀少。

明代著名地理學家及旅行家徐霞客曾記載：「其色月白有紅，皆不甚大，僅如拳，此其蔓也」，說的就是南紅瑪瑙。典型南紅瑪瑙主產地於雲南，固因其產地而得名。最具代表性的產區在保山市的瑪瑙山。其次，南紅瑪瑙在甘肅、四川等地也有出產，通常稱之為「甘南紅」。近年來，隨著四川涼山地區高品質南紅瑪瑙礦的發現，收藏級別南紅瑪瑙作品又重新回到收藏界，吸引了眾多收藏家的關注。現在，用上等南紅瑪瑙製作的珠寶及擺件存世稀少，品質高的老南紅瑪瑙石材存量亦有限。基於這些因素，注定南紅瑪瑙的精品收藏價值將與日俱增。

天成國際 2014 春季拍賣將推出多件來自雕刻大師王凱的南紅拍品（編號 40、41 及 42）。作為海派新書畫玉雕的代表人物，王凱以中國畫和書法的畫面美感、意境內涵與溫潤內斂的玉雕相結合，創作出唯美、寫實、婉約或禪意鮮明的藝術特色。

VERDURA – AN AMERICAN’S CROWN JEWELLER

Verdura, established in 1939, is an American fine jeweller and specialty retailer whose iconic collection is based primarily on the fabrication of jewellery from the archives of Fulco Di Verdura, a Sicilian duke who started his early career at Coco Chanel and later acted as their head jewellery designer. During his eight years with Chanel, Fulco Verdura designed the notable Maltese Cross brooches and cuffs, which signify the unique look for both Chanel and the house of Verdura. Having Hollywood ties, Verdura ventured in America and designed colourful jewels for Hollywood stars in that era, including Greta Garbo, Rita Hayworth, and Katharine Hepburn. In 1941, Fulco collaborated with Salvador Dalí on a collection of jewellery designs and in the same year, he designed the famous signature Verdura piece, the “Night and Day” cufflinks, for Cole Porter after being inspired by the lyrics of his sensational love song. In 1985, Ward Landrigan acquired Verdura and fostered the tradition of creating timeless designs, from nearly 10,000 sketches Fulco created during his lifetime. Verdura was appointed as the “America’s Crown Jeweller,” one of the premier jewellery designers of the 20th century by the New York Times.

Today, many celebrities, including Sarah Jessica Parker, Brooke Shields, Anne Hathaway, and Cameron Diaz, all bejeweled on the red carpet with this leading internationally renowned fine jeweller.

Verdura is celebrated for its innovative designs, expertise, craftsmanship, and quality gemstone pieces. It is also well known for using large gemstones, yellow gold, and natural objects such as seashells in its design pieces. In fact, Verdura was the pioneer to combine coloured stones with gold and the first to transform classical motifs like coins, ropes, and caning into popular jewellery. In reminiscent of its timeless designs, Verdura reinforces its reputation as an industry leader by launching new products from its archive annually and by servicing a large international clientele.

To relish the remarkable design of this leading design house, Lot 65 has resembled the innovative use of classical motifs, which embrace elegance and at the same time entice prestige.

傲視群雄

「領馬回頭，統籌左右，三聲呼喚，一起加油」

天成國際誠意呈獻青金石「領馬」座件，有寓意傲視群雄的意思，作為首領的馬，永遠跑在前方，並不時回首呼喚鼓勵其族羣。

青金石屬於佛教七寶之一，其色是藏傳佛教中藥師佛的身色，保佑平安健康，無病無災；發掘青金石的歷史已超過六千年，在古希臘、古羅馬，青金石被認為是富有的標誌。埃及豔后的首飾、中國皇帝的朝珠、博物館級鐘錶都用上青金石作為原材料。

青金石的顏色以藍色為基色，因「其色如天」，又稱「帝青色」，很受古代帝王青睞。而在民間，藍色正是一種希望之色，同時它還是一種「平和、祥瑞和善良」的象徵，故多有吉祥雕件現世。中國古代通常用青金石作為上天威嚴崇高的象徵，據史料記載，清代時，青金石作品還成了宮廷大臣們朝冠的飾品，以此來炫耀顯赫的身份和地位。

在民間收藏中，十二生肖始終是人們偏愛的題材之一。藝匠選用天藍色的青金石作為吉祥馬擺設，是明創建和維護物理和天體平面之間的連接，營造出強烈的精神聯繫，不僅使馬的形象得到了昇華，而且作品內涵也得到了較好的體現。青金石從域外傳入國內後，早已融入到了中華傳統文化的內蘊之中。藝匠們在傳承民族文化的同時，以刀代筆，在堅硬細密的石材上施展技藝，抒發各自的情感，豐富和拓展了民間藝術的內涵，其精神實在是難能可貴。

PEERLESSLY AHEAD AT THE FOREFRONT

“Looking back, the leading horse surveys the situation and calls on its fellow stallions with repeated neighs to gather speed.”

To be offered is an equine-themed lapis lazuli carving, named ‘The Leading Horse’ to connote being peerlessly ahead of the competition. The leading horse is constantly at the forefront, turning its head around at times to encourage its fellow stallions.

Lapis Lazuli is one of the seven Buddhist treasures. Since it is the colour of the Buddha of Medicine in Mahayana Buddhism, the gemstone is believed to offer blessings for good health and safety. Mined for over 6000 years, it is also a symbol of wealth. The headdress of Queen Cleopatra in ancient Egypt, the ceremonial necklaces of Chinese emperors and museum-grade timepieces were all adorned with the gemstone.

Blue is the base colour of lapis lazuli. It resembles the “colour of the sky”, and is popularly known as “Emperor Blue”. The gemstone was a top favourite among kings and emperors since antiquity. For the commoners, blue stands for hope and is a symbol of “peace, blessings and kindness”. This has inspired numerous auspicious-themed carvings of lapis lazuli. In ancient China, the gemstone was a lofty symbol of heavenly authority. According to historical records, it was used to decorate the court costumes and accessories of imperial officials, as a mark of status.

The 12 Chinese Zodiac Animals is one of the most cherished themes in carvings from many private collections. The artisan chose sky-blue lapis lazuli to create an auspicious horse ornament to highlight an intense spiritual link of civilization with physical laws and astronomy. The use of such a gemstone not only heightens the stallion’s image but also the overall essence of the work. Since its introduction into China from abroad, lapis lazuli has long been assimilated into traditional Chinese culture. Using gravers, skilled craftsmen practised their intricate carving skills on the hard, dense and sturdy gemstones to express their inner feelings while taking the folk craftsmanship to a whole new level.

珍貴的矢車菊藍寶

藍寶石得名源自古拉丁文中的藍色，天然藍寶石綻放著不同色調與明暗，而其中表表者為矢車菊藍寶，它帶著像矢車菊花般的藍，教人讚嘆。藍寶石或多或少夾雜著內含物，即使最珍貴的寶石也不例外，顏色便成為判別其價值的重要元素，少許顏色的差異往往令其身價有著天淵之別。

在斯里蘭卡，開採藍寶石已有二千多年獨有的悠長歷史，其矢車菊藍寶更是享負盛名。除了在博物館或皇室收藏外，近年間大型藍寶石已變得非常罕見，充斥市場的多是體型較小的寶石。而五克拉以上帶著上乘顏色與淨度的藍寶石，索價往往是天文數字。在本季拍賣項目 161 號中的 12.22 克拉斯里蘭卡天然矢車菊藍寶石，正是藍寶界中珍貴度與罕有度極高的經典。

THE PRECIOUS CORNFLOWER BLUE SAPPHIRE

SAPPHIRE – comes from the Latin word meaning “blue”. Colour of blue sapphires comes in different shades and tones and among all cornflower blue is the most valuable. These sapphires are given the name “Cornflower Blue Sapphire”. Sapphires are rarely completely clean and even very expensive stones can be slightly included. Colour becomes the most important factor in determining the value of the gemstones. Subtle differences in colour can lead to substantial variations in valuations.

Mining of Sri Lanka dated back more than two thousand years with its own heritage. The classic “Cornflower Blue” is what Sri Lankan mines are famous for. Apart from the enormous gemstones in museums and Royal collections, blue sapphires available in the market are mostly of modest size. Those over five carats with top quality colour and clarity are fetching high prices. As presented in Lot 161, the 12.22 carat Sri Lankan Cornflower Blue Sapphire is a rare and prestigious item.

石榴石是一組硅酸鹽礦物的統稱，憑著其堅硬的本質（莫氏硬度 7 至 7.5），受到珠寶界廣泛採用。石榴石的化學元素繁多，因而散發著各式各樣的顏色，甚至在不同光線下產生變色的效果。而光學透射度及反射度也因石而異。一顆晶瑩通透、閃爍亮麗而色澤濃郁的石榴石，往往是收藏家所追求的對象。

石榴石的晶體，外貌與石榴果內的種子極為相似，因而得名。石榴石的礦藏分佈世界各地，但高質素的寶石往往來自非洲及印度。

石榴石的應用可追溯至青銅器時代。據說挪亞就是靠著石榴石燈籠發出的光輝在黑暗中駕駛「方舟」，而在古埃及及古希臘，石榴石更是一種常用的首飾。旅客亦愛佩戴石榴石作為消災擋難的幸運石。今天，石榴石已被定為美國紐約州的州石及一月分的生辰石。

錳鋁榴石（拍品編號 163 及 164）是石榴石的一個類別。在近年納米比亞出土的礦產令其舉世震撼。閃爍艷麗的橙至紅色令珠寶界咄咄稱奇，甚至比喻為宇宙間的彗星，亦被冠以柑橘榴石之外號。由於礦產稀有，加上開採成本高昂，錳鋁榴石的價格在近年已不斷被推高。

憑著其七彩繽紛的顏色而配合著時代潮流的變化，石榴石已在高級珠寶世界中站穩了一席位，亦為業界加添了一股新動力。

Garnets are a group of silicate minerals. They are comparatively hard (7 – 7.5 on the Mohs Scale) and are ideal for making jewellery. With different chemical compositions, garnets exhibit wide range of hues one can imagine and even possess colour changing character under different light spectrum. Light transmission and refractive properties also vary. Specimens bearing brilliant transparency and luster together with intense colour are highly sought-after.

Garnet crystals resemble seeds of pomegranate. That is how their Chinese name “Pomegranate Stone” (石榴石) comes from. Garnets can be found in various parts of the world and high quality garnet gemstones usually come from Africa and India.

Usage of garnets have been known since Bronze Age. Noah is said to steer his ark through darkness with the help of a garnet lantern. In ancient Egypt and Greece, garnets were commonly used as jewellery. They were also seen as protective stones for travelers against evil and disaster. Nowadays, garnet is the state gemstone of New York and the birthstone of January.

Spessartite (lot 163 and 164) is a category of garnet. It gains its fame from a recent discovery in Namibia. The jewellery world is stunned by its fiery orange to red colour and compares it to comet in the universe. It is also given the name “Mandarin Garnet”. Rarity of the mine together with the difficulties in mining have pushed up the price of this precious gemstone remarkably.

Thanks to the rich colour spectrum, garnets today can quite happily keep pace with the changes of styles and colour trends of fashion, giving impetus to the world of jewellery.

尖晶石 — 收藏與投資

SPINELS – FROM AN INVESTMENT PERSPECTIVE

BY EDWARD YOUNG, CFA, CPA (US), CAIA, FRM

尖晶石，是珠寶收藏家渴求的非凡珍品，卻有一段被誤會為紅寶石的長久歷史。直至 1800 年中葉，人們才發現尖晶石具有別於紅寶石的珍貴特質。因此，許多皇室珠寶中的「紅寶石」到後來才被確認為尖晶石。當中傳奇的例子包括英國皇室的帝國皇冠上那顆重達 170 克拉的黑太子紅寶石，以及由英女皇二世收藏、重逾 350 克拉的帖木爾紅寶石，它們都是近代才被鑒定為紅色尖晶石。

云云尖晶石中，以紅色尖晶石最為人渴求，而「紅色」亦帶有多種色調。天成國際本季呈獻的方形切割帶粉紅的紅色尖晶石便是最佳例證。此顆尖晶石產自塔吉克斯坦帕米爾高原的 Kuhi-Lal 礦，重 39.24 克拉，碩大透徹。而上文提及的黑太子紅寶石及帖木爾紅寶石這兩顆最為人知曉的皇室珍藏尖晶石，也是源自相同產地的。

與具接近特質的紅寶石相比，尖晶石較為稀有，而且被鑒定為寶石級別的尖晶石更為珍罕。因此，尖晶石過去在市場未受到追捧，令其價格處於較低的水平，雖然如此，尖晶石在過去幾十年逐漸受寶石鑒藏家的青睞，價格亦有穩步上揚的趨勢。站在投資的角度看，尖晶石是吸引的。

現今的投資市場，股價高企，債券收益屢見新低，樓市泡沫化，全球的經濟及政局變化都增加了投資的風險。相比其他投資工具，優質罕有的寶石如尖晶石是較穩妥的投資。稀有的尖晶石，在市場上漸受注目，從種種條件來推算，尖晶石的價格將來應有所上漲。由於價格仍有上調空間，尖晶石的風險回報相對優良，造就尖晶石成為不錯的投資選擇。

Spinel, a group of gemstones that have a long history of being incorrectly identified as rubies, are spectacular specimens that are in high demand among

gem collectors. It wasn't until the mid-1800s when spinels were found to have different quality characteristics compared to rubies. As a result, many famous "rubies" on some of the world's finest crown jewels are actually spinels. The most famous examples are the magnificent 170-carat Ruby of the Black Prince set on the Imperial State Crown of England, and the Timur Ruby, which weighs more than 350 carats and is today part of the private collection of Queen Elizabeth II.

In general, red colour spinels are the most desirable and the "red" comes in different hues. This 39.24 carats emerald-cut pink-red spinel offered at Tiancheng International is one of the finest examples of the large and clean gemstones mined from the Pamir Mountains in Kuhi-Lal, a province in Tajikistan where some of the world's most famous spinels were produced and collected by the Royal families, including the Ruby of the Black Prince and the Timur Ruby mentioned above.

Spinel are much less available than rubies of similar characteristics and gem quality spinels are very rare. The rarity of spinels makes the gem less recognized in the market, thus keeping prices relatively low. However, spinels have certainly been a rising star over the past few decades, simply because they have been in great demand by gem enthusiasts. Nevertheless, the lack of popularity due to its scarcity has kept prices relatively low – for now. However, from an investment perspective, spinels are attractive.

Just think of what's out there in the investment universe – soaring equity prices, bond yields near record lows, real estate bubbles, and macroeconomic and geopolitical risks across the globe. On the other hand, rare and high quality gemstones, such as spinels, are relatively more sound, investment-wise. Since spinels are scarcely available, yet at the same time garnering more attention, it is reasonable to believe their prices will fundamentally be driven up in the future. In addition, because their prices are yet to reach levels of "extreme" inflation, spinels present an excellent risk-reward profile relative to many other investment options.

WHITE JADE – A GEMSTONE WITH UNDERSTATED GLOSS AND LUSTRE

BY DR. WILSON YIP, GEMOLOGIST APPRAISER

Jade holds a unique and enduring appeal in Chinese culture. For years, the gemstone has been personified and associated with human morals. Ancient Chinese philosophers, like Laozi, Confucius, Xunzi and Xu Shen, spoke highly of jade as a symbol of noble virtues which set the standard for gentlemen of honour, while offering mankind spiritual sustenance.

Jade carvings have long been honoured as national essence. For generations, jade is a favourite gemstone for royalties and collectors, overwhelmed by its genteel character and rarity. Emperor Qian Long of Qing Dynasty was a jade enthusiast. His passion and profound knowledge of jade paved the way for development of its craftwork and culture. In the 24th year of his reign, the finest Hetian jades from Xinjiang were introduced to the Palace. With greater availability of materials, jade craftsmen could express their artistic creativity freely. *The Jade Mountain of Da Yu Regulating the River*, an enormous jade sculpture from the Palace Museum in Beijing, is one of the masterpieces at that time.

Hetian white jade evokes the meanings of patriarchy, authority and integrity in traditional Chinese culture while jade carvings reflect the value of materials and craftsmanship.

Also known as Nephrite, Hetian jade is distinguished by a fibrous structure and white being the most precious colour. Nowadays, jades from Qinghai of China, Korea and Russia are also included in the category of 'white jade', apart from Hetian jades from Xinjiang while the latter still stand out for having superiority in density and lustre.

Hetian white jades can be classified into 'seed material', 'mountain flowing material' (Gobi shore jade) and 'mountain material'. Seed material suet white jade is the most valued, for its resemblance to emulsified mutton fats with an understated lustre. The texture is exquisitely fine and clean. Mountain material nephrite is, on the other hand, more on the greyish-green side and perfectly white ones are rare.

Brownish-red colour, resembling red dates and autumn pears, sometimes appears in seed material nephrites. With the additional variety of colours apart from the basic white, jade draftsmen can enhance their works in a more imaginative and artistic way.

Transforming pieces of raw stones to magnificent art pieces, jade artisans apply fully their different skills of painting, sculpturing and calligraphy with elements of folk and religious art. Various schools of jade carvings have emerged, namely the Yang School, the Jing School and the Hai School. The Yang School places an emphasis on scale, proportion and layout of the subjects. The Jing School, on the other hand, varies the size proportion in a way to enliven the portrayals. Flowers, animals, people and auspicious figures are favourite subjects and every detail is delicately carved. Under the Hai School, carvings of household objects like censers and vases are reminiscent of ancient Chinese bronzeware.

With protracted mining over years, outputs of Hetian white jades from Xinjiang have dwindled immensely in particular the Suet (mutton fats) white jades. Given their scarcity and irreplaceability, such nephrites are definitely gems of inestimable value in the near future.

Jade carvings of household objects such as censers and vases, performed in the Shanghainese style, come across as staid and elegant. The beautiful decorative patterns on them are reminiscent of those found on ancient Chinese bronzeware.

Judging by the uniformity in colour and texture, it is clear that the tripodal censer and its cover are carved from the same piece of jade. Meticulous craftsmanship is also reflected by the tight-fitting of the cover and the receptacle's opening. The cover is carved with a ferocious dragon in openwork. Decorative elements carved on the handles, base and legs are in well harmony. Each handle is suspending a loose ring in symmetry. The legs of the censer are elaborated by carvings of mythical-beast heads in low relief, conveying a sense of motion and dignity.

喀什米爾藍寶石

位於喜瑪拉雅山脈的喀什米爾礦源，曾開採出世界上最珍罕非凡的藍寶石。雖然其他產區如馬達加斯加、斯里蘭卡及緬甸都盛產瑰麗的藍寶石，但喀什米爾藍寶石的懾人品質始終更勝一籌，是藍寶石的指標。

璀璨動人的深藍色是喀什米爾藍寶石的獨特之處，而內含的針狀物令藍寶石如絲絨般細膩。喀什米爾礦源擁有七年短暫而光輝的歷史。由於喜瑪拉雅山脈位處高海拔，偏僻的地理令開採格外艱險。早在 1887 年喀什米爾已絕礦，自此以後，縱使用上再精密的儀器不斷努力勘察，人們在礦源還是找不到品質相近的藍寶石。

稀有的喀什米爾藍寶石讓全球寶石藏家趨之若鶩。這類傳奇的寶石彌足珍貴，渴求於市，也甚少推出拍賣，因而增加收藏的難度。是次天成國際推出的喀什米爾藍寶石，重 4.09 克拉，色澤濃郁，淨度超凡，是珠寶藏家夢寐以求的瑰寶。

KASHMIR SAPPHIRE

Kashmir mines, high up in the Himalayan mountains, are home to some of the world's most finest and rarest gemstones on earth. Kashmir sapphires are so resplendent and distinguished that they proudly set the standards for other blue sapphires around the world. Sapphires from Madagascar, Ceylon, and Burma come close, but Kashmir sapphires still stand out as the pinnacle of them all.

What contributes to the uniqueness of these gemstones is their vibrant blue colour combined with a 'velvety' texture caused by the inclusion of silk. These precious gemstones also have a prominent history – they were mostly unearthed, in just a short time span of seven years, high up in the stone-cold Himalayas where extreme altitude and remote location made mining extremely difficult. Since the mines were depleted in 1887, subsequent explorations, even with more advanced techniques, have failed to uncover gemstones of similar quality and characteristics.

The scarcity of Kashmir sapphires has made these stones tremendously sought-after by gem enthusiasts all around the world, and acquiring such legendary gems is often found extremely challenging since they show rare appearances even in auctions. This 4.09-carat Kashmir sapphire presented at Tiancheng International is exceptional for its colour and clarity, rendering it a beguiling beauty to all discerning collectors.

夭紫嫣紅

紅寶石是剛玉的一種，紅色來自它成份中的鉻 (Cr)，含鉻越高，顏色便越鮮艷，血紅色的紅寶石最受人們珍愛，俗稱「鴿血紅」。

紅寶石炙熱的紅色，令人們把它和熱情，愛情及高尚品格聯繫一起，被視為愛情之石。傳說中佩戴紅寶石的人將會愛情美滿，家庭和諧，亦能健康長壽。古代的緬甸武士便愛在身上刺一個小口，嵌入一顆紅寶石，以保刀槍不入。

東方人視紅色為吉祥的顏色，紅寶石自然成為他們眼中吉祥之物。在中國清代，親王以至一品大官俱在官帽上鑲上紅寶石，作為官職之區別；而在緬甸，公元前 585 年修建的瑞光大金塔，更是鑲嵌了二千多顆紅寶石；在世界各地皇族的皇冠上，自古以來紅寶石亦是不可缺少的飾物。天然紅寶石大多來自亞洲（緬甸，泰國和斯里蘭卡），非洲和澳大利亞亦有出產。而舉世知名的莫過於來自有數千年開採歷史的緬甸抹谷山谷的紅寶石礦。

珍珠溢光 珠圓如露

天然珍珠散發著一種清新脫俗，高貴典雅的氣質，每每令人賞心悅目，難怪自古以來它都是中外皇室所偏愛的珠寶，代代相傳。

在古印度傳說中，具備美貌與權力的女人，都是隨珍珠而生，成為它的化身。難怪慈禧太后在諸多珠寶玉石中對珍珠情有獨鍾，身上腳上往往都戴滿了珍珠，亦下指令在她過世後放置一顆巨大無比的珍珠在口內。

在英國，令溫莎公爵放棄王位的溫莎公爵夫人也鍾情於公爵所贈送的一串珍珠項鍊，在重要的社交場合必定佩戴。此項鍊其後更在拍賣場上出現，以天價賣出。

天然珍珠的形成其實是在海床或河床上的蚌類生物，當受著外來物刺激而產生的一種自我保護功能，它會釋出一種酸鈣晶體包裹著外來物而形成珍珠層，而珍珠的大小、形狀、顏色就決定於珍珠層的層數，水質環境及天氣。而完美無瑕、色澤均勻的天然珍珠更是萬中無一。

在過度採捕，全球暖化，環境污染等因素影響下，現今全無人工養殖或加工而成的天然珍珠已變得極度稀有珍貴，在市場上也只能在拍賣行中偶爾碰到，本季私人珍藏拍品（編號 359），由共 539 粒渾圓天然海水珍珠而串成的五行項鍊，氣派非凡，在現今市場上是難得一見，在商業角度上為極佳的投資對象，也為收藏家追捧的恩物。

WONDER OF THE OCEAN

Natural pearls exude refreshing elegance and an air of sophistication. Always enchanting, they rank among the most cherished jewelleries of royalty, in China and the West, to be passed down for generations.

Indian legend has a saying that women of great beauty and power were born as the incarnate of pearls. During the Qing dynasty of China, Empress Dowager Cixi showed a special preference for pearls, wearing them all over her body, and ordered that an extraordinarily large pearl be placed in her mouth following her death.

In Great Britain, the Duchess of Windsor, who caused the Duke of Windsor to abdicate his throne to marry her, was especially enamored with a pearl necklace he presented her. Later, it was offered at an auction and was sold for an astronomical price.

The formation of natural pearls originates from species of shelled mollusks on the seafloor or riverbed. When stimulated by a foreign object, these creatures secrete a calcium crystalline substance around the irritant to protect themselves. The size, shape and colour of the pearl are determined by the number of nacre layers around it, along with the water quality and weather. Perfectly flawless natural pearls with magnificent colours are one in a million.

Due to over-harvesting, global warming and environmental pollution, natural, untreated pearls are hard to come by, appearing only at the occasional auctions. To be offered in this auction is an impressive five-strand necklace composed of 539 round natural salt-water pearls (Lot 359). Manifesting an extraordinary splendor, this private collection is a rare find in the market, offering excellent investment and collectible values to jewellery connoisseurs.

These watches (not limited to Rolex) may not be shipped into the U.S. and can only be imported personally. 4 圖錄及拍賣前檢查

4.1 天成對拍賣品所得的一切資料部份由賣家提供。天成毋須及不會就拍賣品進行任何獨立盡職審查，因此競投人(包括買家)必須(於適當時連同其私人獨立專業顧問)檢查拍賣品，並就拍賣品的描述、大小、質量、顏色、狀況、屬性、真偽、罕有度以及文學、文化或歷史關聯性得出其獨立意見。

4.2 對拍賣品的損壞或修復的提述僅作指引用途。對瑕疵作出提述並不表示拍賣品不存在未經提述的瑕疵。未有對瑕疵作出提述並不表示拍賣品不存在瑕疵或沒有經過修復。

4.3 天成及賣家不會以任何方式就拍賣品的圖錄或任何補充資料之錯誤及/或遺漏(包括但不限於任何狀況報告)承擔責任。

4.4 對拍賣品出售價的預測資料僅為天成根據其作為拍賣官的經驗及根據類似物品於近期的出售價所作的估價。有關預測資料不是對拍賣品成交價的聲

明，亦不是就有關保險對拍賣品所作的估值或作為其他用途，任何人士不應倚賴有關預測資料。

5 知識產權

6 競投人登記
6.1 有意出席競投的人士必須事先向天成登記為競投人。

6.4 親身競投的競投人必須在拍賣當日進行拍賣前超過 30 分鐘出席拍賣會場作親身登記。

6.7 如天成收到相等競投價的書面競投，而該等競投價是拍賣品的最高競投價，則中標人將會以天成最先收到及受理的書面競投為準，並由拍賣官決定該中標人為買家。

6.8 天成將免費提供書面競投及電話競投服務，有關服務將視乎其員工及後勤於進行拍賣時的工作承擔而定，因此可能會被取消或刪除。

7 拍賣程序

7.1 拍賣品的拍賣時間、地點及方式應由天成不時絕對酌情決定。

7.2 競投人作出最高競投價，而該出價獲拍賣官絕對酌情接納的，則該競投人將成為買家。拍賣官擊槌代表最高競投價已獲接納，並因而訂立賣家與買家之間的出售合同。

7.3 除非本圖錄有相反或其他的規定，所有拍賣品均須設定(保密的)底價，如競投人的出價未能達到底價，則表示拍賣品不予出售。

7.4 拍賣品的底價將不超過其最低估價。

7.5 拍賣官在其認為適當時可代表賣家以低於底價的價格競投拍賣品。

7.6 對於不設底價的拍賣品，除非已有競

投，否則作為一般的做法，拍賣官會自行酌情決定以拍賣品的低位拍賣前估價的 50% 開始拍賣。若在此價格下並無投標，拍賣官會自行酌情決定下調價格繼續拍賣，直至有競投人出價，然後拍賣官會以該競投價繼續進行拍賣。

7.7 如沒有競投人對不設底價的拍賣品提出更高的叫價，則拍賣官會以拍賣品的低位拍賣前估價的約 50% 進行書面競投，或如實際書面競投的叫價低於低位拍賣前估價的50%，則拍賣官會以實際缺席競投的叫價進行書面競投。

7.8 天成有權絕對酌情決定於拍賣前後的任何時間給予或不給予通知進行以下各項：

7.8.1 拒絕任何競投；

7.8.2 拒絕任何競投人親身或電話參與拍賣；

7.8.5 撤回、合併或分開任何拍賣品；

7.8.6 決定成功競投人。

7.9 為方便競投人，某些拍賣活動會設有貨幣兌換顯示板及/或影音投射。貨幣兌換顯示板及/或影音投射的操作可能會發生誤差或錯誤。如競投人遵照貨幣兌換顯示板及/或影音投射而非拍賣場地的實際競投情況行事，天成不會對此承擔任何責任。

7.10 拍賣後買家必須即時向天成確認其姓名、地址及天成要求的其他資料。

8 付款及稅務

8.1 買家必須在拍賣後的第五個營業日的下午四時三十分或之前悉數支付到期應付的買入價，不論買家是否需要取得拍賣品的出口或入口許可證。

8.2 付款時間是重要的。

8.3 除買入價外，買家必須支付任何適用的稅項、印花稅、關稅及費用。

8.4 天成將自行酌情決定以買家所付的訂金支付買家到期償付天成的任何金額。

9 欠繳款

9.1 如買家未能悉數支付到期應付的買入價，在不影響天成及/或買家的任何權利的情况下，天成將絕對酌情決定由天成及/或賣家行使以下其中一項或多項的權利或補救方法：

9.1.1 終止拍賣品的出售合同、保留向違約買家申索損害賠償的權利，包括天成及/或賣家蒙受的損失及損害，包括買入價及所招致的合理成本及開支，並在上述各個情況下天成可從任何由其持有的款項或訂金中作出扣減。

9.1.2 就買入價及利息、強制執行成本(包括按彌償基準釐定的法律費用)針對買家展開法律程序；

9.1.3 從買家未支付的餘額中抵銷天成或其於全球各地的任何附屬成員、附屬公司或母公司在任何交易中拖欠買家的任何金額；

9.1.4 就買入價按日徵收複利，利率為香港上海匯豐銀行有限公司的最優惠港元借貸利率加 5%；

9.1.5 以天成不時決定的時間、地點、方式及條款透過拍賣或私人協約重售拍賣品，買家須負責支付實際收取的重售價與重售所使用的成本、開支及酬金的不足差額；

9.1.6 不允許買家作為競投人參與任何拍賣或規定買家須支付訂金以參與競投；

9.1.7 對由天成管有的買家財物行使留置權；及/或

9.1.8 採取天成認為必須或適當的其他行動。

12.1.3 買家已按照天成不時提出的要求履行反洗黑錢及/或反恐佈活動融資的檢查，並為天成所滿意；及

12.1.4 買家已履行天成不時絕對酌情決定要求履行而尚未履行的義務。

12.2 買家應在拍賣當日起的三十個曆日內從天成的拍賣會場領取拍賣品(除非天成及買家另行作出協定)，惟買家應事先履行上述一切事宜。

12.3 如買家未有在拍賣當日起的三十個曆日內領取拍賣品，天成會安排將拍賣品存放於天成的倉庫內，並就每件拍賣品每月向買家徵收行政費用 800 港元。

13.2.1 撤銷出售；或

13.2.2 延遲支付拍賣品的買入價。

13.3 買家可要求天成代表買家申請出口許可證。如天成接納有關要求，天成有權按有關服務的當時適用價格向買家徵收費用，但買家仍有責任在相關期

TERMS AND CONDITIONS OF PURCHASE

Please pay particular attention to the Warranty and to the exclusions and limitations of liability set out in Clauses 14 and 15.

1 APPLICATION OF TERMS AND CONDITIONS OF PURCHASE

- 1.1 These Terms and Conditions of Purchase should be read by all persons intending to bid for a Lot at an auction, they set out the principal terms and conditions on which the Lots included in this catalogue are to be sold at auction, and form the basis of the contract between:
- 1.1.1 the Bidders, including the Purchaser, and the Vendor (as seller); and
- 1.1.2 the Bidders, including the Purchaser, and Tiancheng (as auctioneer).
- 1.2 In addition to these Terms and Conditions of Purchase, the Sale of Lots included in this catalogue is also subject to any further terms and conditions set out (and hereby incorporated into these Terms and Conditions of Purchase):
- 1.2.1 in the bidder's note in this catalogue;
- 1.2.2 in any insert included with this catalogue;
- 1.2.3 in any written notice posted or distributed at the auction, or any verbal announcement made at the auction, prior to or at the time of the Sale.
- 1.3 By bidding at auction the Bidder agrees to be bound by these Terms and Conditions of Purchase.

2 TIANCHENG AS AUCTIONEER

- 2.1 Tiancheng acts as agent for the Vendor, auctioning the Lot on the Vendor's behalf, unless the contrary is expressly stated in writing by Tiancheng.
- 2.2 The contract for the Sale of the Lot is made directly between the Vendor and the Purchaser, on and subject to these Terms and Conditions of Purchase.
- 2.3 The auction of the Lot shall be conducted at the time, at the location and in such manner as Tiancheng determines from time to time, acting in its absolute discretion.
- 2.4 Tiancheng may, in its absolute discretion, provide a number of services (described further below), such as catalogue descriptions, condition reports, absentee bidding, telephone bidding, currency converters, and audio-video imagery of the Lots. These services are provided to facilitate the auction process, but should not be relied upon by any Bidder, including the Purchaser. Tiancheng does not accept any liability in respect of any errors or omissions in respect of such services.

3 SALE "AS IS"

- 3.1 All Lots are sold on an "as is" basis, subject only to the Warranty.
- 3.2 All Bidders, including the Purchaser, should personally inspect the Lot pre-auction, if appropriate with their own independent professional advisor.

4 CATALOGUE AND PRE-SALE INSPECTIONS

- 4.1 Tiancheng is partially reliant upon the Vendor for all information in respect of

the Lots. Tiancheng is not required to, and may well not do, any independent due diligence in respect of the Lot, therefore it is important that the Bidders, including the Purchaser, inspect the Lot, with their own independent professional advisors if appropriate, and form their own independent view as to the Lot, including its description, size, quality, colour, condition, attribution, authenticity, rarity, and literary, cultural or historical relevance.

- 4.2 Any references to damage or restoration of a Lot are for guidance only. A reference to a defect does not suggest that there are no other defects. The lack of a reference to a defect does not suggest that a Lot has no defects, or that it has not undergone restoration.
- 4.3 Tiancheng and the Vendor are not responsible in any way whatsoever for any errors and/or omissions in this catalogue, or any supplemental materials relating to the Lot, including but not limited to any condition report.
- 4.4 An estimate of the Sale price of a Lot is merely Tiancheng's estimate, based on its experience as an auctioneer and the recent sale prices of similar property. Such estimates are not to be relied upon by any person, nor are they a statement that the Lot will sell at that Hammer Price, nor are they a valuation of the Lot for insurance, or for any other purpose.

5 INTELLECTUAL PROPERTY

- 5.1 The intellectual property rights in all materials (of whatever form) produced by Tiancheng, its employees, agents, officers and/or sub-contractors, including but not limited to the contents of this catalogue and condition reports are and shall remain the exclusive property of Tiancheng, and may not be used without first obtaining Tiancheng's prior written consent.

6 BIDDER REGISTRATION

- 6.1 To attend the auction, persons must first register with Tiancheng as Bidders.
- 6.2 To register with Tiancheng a prospective Bidder must:
- 6.2.1 sign a registration form setting out, amongst other things, their name, their permanent address and the details of the identity document;
- 6.2.2 provide Tiancheng with satisfactory proof of their identity and address;
- 6.2.3 provide Tiancheng with bank or other financial references as may be required by Tiancheng from time to time; and
- 6.2.4 provide such other documentary evidence and information as Tiancheng may specify from time to time.
- 6.3 Bidders are considered to be bidding as principal and will be liable to pay the Purchase Price, unless Tiancheng has expressly agreed in writing that the person can bid as agent for a principal disclosed to Tiancheng and that such principal will be solely liable for the Purchase Price.
- 6.4 Bidders who come in person must attend on the day of the Sale, more than 30

minutes prior to the Sale, to register in person.

- 6.5 Bidders may make advance arrangements with Tiancheng prior to a Sale to bid by telephone. Tiancheng will use reasonable efforts to enable them to bid in the auction by telephone.
- 6.6 Bidders may provide Tiancheng with written bids, for a Lot, in the currency of the Sale, by completing and returning to Tiancheng an absentee bid form. Tiancheng will use reasonable efforts to execute such bids on behalf of the Bidder.
- 6.7 If Tiancheng receives written bids for identical amounts on a Lot, and these are the highest bids on the Lot at the auction, the Bidder whose written bid was received and accepted first by Tiancheng shall win the bid and be determined by the auctioneer to be the Purchaser.
- 6.8 Written bids and telephone bidding are free services undertaken by Tiancheng, subject to its other staff and logistical commitments at the time of the Sale, so they may be removed or cancelled at any time.
- 6.9 Tiancheng accepts no liability for:
- 6.9.1 failing to execute a written bid;
- 6.9.2 failing to execute a telephone bid; and/or
- 6.9.3 errors and omissions in connection with a written bid and/or telephone bidding.

7 AUCTION PROCEDURES

- 7.1 The auction of the Lot shall be conducted at the time, at the location and in such manner as Tiancheng determines from time to time, acting in its absolute discretion.
- 7.2 The Bidder who placed the highest bid accepted by the auctioneer, in its absolute discretion, will be the Purchaser. Striking of the auctioneer's hammer marks the acceptance of the highest bid, which creates the contract for Sale between the Purchaser and the Vendor.
- 7.3 Unless specified to the contrary in this catalogue or otherwise, all Lots are offered subject to a (confidential) reserve price, which if not met by a Bidder at the auction shall mean that Lot is not sold.
- 7.4 The reserve for a Lot will not be in excess of the low estimate for the Lot.
- 7.5 The auctioneer may bid for a Lot on behalf of the Vendor at below the reserve price, in such manner as the auctioneer deems fit.
- 7.6 Unless there are already competing bids for Lots without a reserve, the usual practice of the auctioneer, in his or her discretion, is to open the bidding at 50% of the low pre-sale estimate for the Lot. In the absence of a bid for the Lot at that level, the auctioneer will then reduce the asking price in his or her discretion until a bid from a Bidder is placed, and the auctioneer shall then continue up from that amount.
- 7.7 In the absence of a higher bid, absentee bids may be executed on a Lot with no reserve at approximately 50% of the low pre-sale estimate for the Lot, or at the amount of the actual absentee bid if it is less than 50% of the low pre-sale estimate for the Lot.

7.8 Tiancheng is entitled, at its complete discretion, at any time before or after the Sale, and with or without notice to:

- 7.8.1 refuse any bid;
- 7.8.2 refuse any Bidder access to the Sale in person or by telephone;
- 7.8.3 proceed with the bidding in the auction in such a manner as Tiancheng determines; re-offer a Lot for sale (including after the fall of the hammer);
- 7.8.4 withdraw, combine or divide any Lots;
- 7.8.5 determine the successful Bidder.
- 7.9 For the convenience of Bidders, at some auctions a currency converter, and/or audio-video screens may be used. Errors or mistakes may occur in the operation of the currency converter and/or audio-video screens. Tiancheng does not accept liability to Bidders who follow the currency converter and/or the audio-video screens rather than follow the actual bidding in the auction room.
- 7.10 Immediately following the Sale, the Purchaser must confirm to Tiancheng their name, and address and such other particulars that Tiancheng may request.

8 PAYMENT AND TAXES

- 8.1 Payment of the Purchase Price is due in cleared funds no later than 4:30pm on the fifth Business Day following the Sale, irrespective of whether or not the Purchaser requires any export and/or import licence for the Lot.
- 8.2 Time of payment is of the essence.
- 8.3 The Purchaser shall pay any applicable taxes, stamps, duties and charges, in addition to the Purchase Price.
- 8.4 Deposits held by Tiancheng on behalf of Purchaser will, at Tiancheng's discretion, be applied to settle any amounts due by a Purchaser to Tiancheng.

9 NON-PAYMENT

- 9.1 Without prejudice to any rights that Tiancheng and/or the Vendor may have, if the Purchaser does not pay the Purchase Price in full in cleared funds when due, then Tiancheng and/or the Vendor shall be entitled in Tiancheng's absolute discretion to exercise one or more of the following rights or remedies:
- 9.1.1 to terminate the contract of Sale of the Lot, retaining the right to damages for the Purchaser's breach of contract, including any losses and damages suffered by Tiancheng and/or the Vendor, including the Purchase Price and reasonable costs and expenses incurred, which in each case may be deducted from any money or deposit held by Tiancheng;
- 9.1.2 to commence proceedings against the Purchaser for the Purchase Price plus interest, and the costs of enforcement (including legal fees on an indemnity basis);
- 9.1.3 to set off against any amounts which Tiancheng, or any of its affiliates, subsidiaries or parent companies worldwide, may owe the Purchaser in any other transactions, against the outstanding amount remaining unpaid by the Purchaser;
- 9.1.4 to charge interest on the Purchase Price

at 5% above the best HKD lending rate of The Hong Kong and Shanghai Banking Corporation Limited, with such interest calculated daily on a compound basis;

- 9.1.5 to resell the Lot by auction or by private treaty at such time and at such location and in such manner and on such terms as Tiancheng determines from time to time, with the Purchaser remaining liable for any shortfall in the resale price actually received less costs, expenses and premiums of such resale;
- 9.1.6 to not permit the Purchaser to participate as a Bidder at any auction or to render such bidding subject to a deposit;
- 9.1.7 to exercise a lien over the Purchaser's property, which is in the possession of Tiancheng; and/or
- 9.1.8 to take such other action as Tiancheng deem necessary or appropriate.

10 RISK

- 10.1 Risk and responsibility for the Lot (including frames or glass where relevant) shall pass to the Purchaser at the earlier of:
- 10.1.1 4:30pm on the fifth Business Day following the Sale; and
- 10.1.2 delivery of possession of the Lot to the Purchaser and/or the carrier engaged by or on behalf of the Purchaser.

11 TITLE

- 11.1.1 the Purchaser has paid the Purchase Price to Tiancheng in full in cleared funds; and
- 11.1.2 all sums owed by the Purchaser to Tiancheng have been received by it in cleared funds.

12 DELIVERY

- 12.1 Tiancheng shall be entitled to retain possession of the Lot until:
- 12.1.1 the Purchase Price has been paid in full in cleared funds;
- 12.1.2 all other amounts due to Tiancheng, or to any of its affiliates, subsidiaries or parent companies worldwide, have been received in full in cleared funds;
- 12.1.3 the Purchaser has complied to Tiancheng's satisfaction with all anti-money laundering and/or anti-terrorism financing checks which Tiancheng may require from time to time; and
- 12.1.4 the Purchaser has performed any other outstanding obligations that Tiancheng, acting in its absolute discretion may require from time to time.
- 12.2 Within thirty calendar days from the date of the Sale, the Purchaser shall collect the Lot from Tiancheng's saleroom (unless otherwise agreed between Tiancheng and the Purchaser), provided that the Purchaser has first complied with all the matters set out above.
- 12.3 If the Purchaser has not collected the Lot within thirty calendar days from the date of the Sale, then Tiancheng may arrange storage of the Lot at Tiancheng's warehouse at an administrative cost of HK\$800 per Lot per month at the

Purchaser's expense.

- 12.4 If a Purchaser requests to arrange collection of a Lot from Tiancheng's office, after the Lot has been transferred to the warehouse, Tiancheng reserves the discretion to allow collection at Tiancheng's office at an administration fee of HK\$600 per Lot.
- 12.5 Tiancheng shall use reasonable care when handling, packing and shipping a Lot, but Tiancheng is not responsible for the acts or omissions of third parties whom it might retain for these purposes.
- 12.6 Tiancheng is not responsible for the acts or omissions of any handlers, packers or carriers recommended or arranged by Tiancheng at the request (and expense) of the Purchaser.

13 COMPLIANCE WITH LAWS

- 13.1 The Purchaser is entirely and solely responsible for:
- 13.1.1 obtaining all relevant export or import licences for the Lot; and
- 13.1.2 determining if the Lot is subject to any export or import restrictions or prohibitions.
- 13.2 The denial, or delay in the issue of any export or import licence for the Lot (whether or not Tiancheng is assisting the Purchaser in obtaining such licence) does not entitle to the Purchaser to:
- 13.2.1 rescind the Sale; or
- 13.2.2 delay payment of the Purchase Price for the Lot.
- 13.3 The Purchaser may request Tiancheng to apply for an export licence on the Purchaser's behalf. If Tiancheng accepts such request, it shall be entitled to charge the Purchaser for such service at its then applicable price for such service, but it remains the Purchaser's responsibility to obtain the export or import licence within the relevant time period, and Tiancheng accepts no responsibility for any failure to or delay in obtaining such export or import licence.
